SUBJECT	OBEDOX/Liaison/Operations: Kurt BILLMAIER				ABSTRACT	
ACTION REQUIRED - REFERENCES						
<p>Action: For Information</p> <p>Reference: EGNW 2820, 11 October 1962</p> <p>1. We discussed with the BfV the progress of the BILLMAIER investigation and learned that on the basis of the original [ ] lead the GBA opened investigative proceedings and assigned responsibility for the conduct of the investigation to the SG. In April 1962 the BfV passed the SG a copy of the complete [ ] debriefing report, as forwarded under EGNW 2508, and advised the SG that a reliable source had identified BILLMAIER on the basis of a photograph. What progress has been made by the SG is not known, but since the lead has been in their hands since late 1961 and the entire debriefing since April of this year, we are quite certain that little would be gained if we requested the case to be removed from executive channels at this stage.</p> <p>2. BfV tracing apparently revealed that BILLMAIER was at one time in contact with UPHILL. [ ] We know no details of this involvement, but it would certainly further complicate any unilateral KUBARK or joint KUBARK/CAVATA approach to Subject.</p>
